Minimum initial purchase amount is \$2,000 and minimum subsequent purchase amount is \$250. ©2004, HOMER TLC, Inc. All rights reserved.

Solar Power with a BP Solar Home Solution®

the natural source for electricity®

HDS 4091-09/04

Solar Electric Power Benefits

Enjoy peace of mind when you have a solar electric system installed on your home or office with BP Solar, part of one of the largest energy companies in the world. You're not only saving a significant amount of money on electricity, you're protecting the environment. Utilize the most important and reliable power source, the sun.

Solar Offers Financial Benefits:

- Reduction or elimination of your electricity bill
- Protection against rising energy costs
- Increased value of your home or office
- Substantial rebates or tax credits

Solar is a Secure Energy Source:

- Automatic and virtually maintenance-free
- Uses sunlight, a renewable resource
- Provides energy independence

Solar is Environmentally Friendly:

- No fossil fuels, no emissions
- Generates clean electricity
- One system equates to planting approximately an acre of trees**

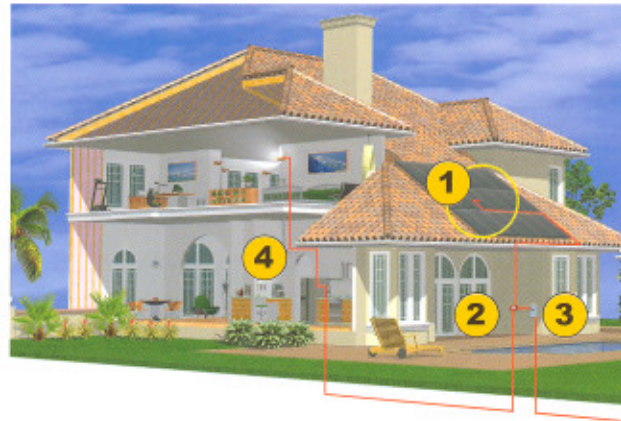

See Your Savings at a Glance

BP Solar Home Solutions™ comes with an optional BP Solar Monitor. Along with other useful features, this exclusive wireless display shows how much of your electricity demand is being met by your system's production. This tool allows you to manage your electricity usage. Turn out some lights and see your household usage decrease!

**Based on CO2 avoidance from an 18-panel system installed in Los Angeles, CA.

How it Works

1 Solar Panels convert sunlight directly into electricity

2 Inverter converts the solar electricity (DC) into household current (AC).

3 Utility Meter runs backwards when the system is generating more power than the house uses.

4 BP Solar Monitor displays up-to-date electrical production and usage.

Built to Last

The solar modules, the "engine" of your system, are built to handle inclement weather and require virtually no maintenance. They have a 25-year warranty from BP Solar, a leader in solar power for over thirty years.

Installation as hassle-free as the Technology

With The Home Depot's authorized professionals, you're assured the finest quality solar electric home power system installation available. All installers are authorized, licensed, and insured professionals dedicated to your satisfaction.

Everything You Need to Generate Your Own Electricity
