STANDARD FEATURES

Performance Features

- 5.7-liter V8, 32-valve DOHC engine with dual Variable Valve Timing with intelligence (dual VVT-i) and Ultra-Low Emission Vehicle (ULEV II) certification
- 383 hp @ 5,600 rpm [1], 403 lb-ft torque @ 3,600 rpm [1]
- 8,500 lb towing capacity [2]
- Six-speed sequential-shift automatic Electronically Controlled Transmission (ECT)
- Full-time four-wheel drive with TORSEN® [3] limited-slip center differential (with manual locking feature)
- Front suspension: Independent, double-wishbone, electronically controlled shock absorbers and stabilizer bar
- Rear-suspension: Four-link with coil springs, electronically controlled shock absorbers and stabilizer bar
- Adaptive Variable Suspension (AVS) with Active Height Control System (X-AHC) and automatic load leveling
- Crawl Control [4] with Downhill Assist Control (DAC) [5]
- Variable Gear-Ratio Steering (VGRS)
- 20-in ten-spoke aluminum alloy wheels with 285/50R20 tires [6] [7]
- Estimated fuel consumption: 12/18 mpg city/highway [8]

Luxury and Convenience Features

- Medium brown walnut interior wood trim
- Leather-trimmed interior
- Wood-and leather-trimmed four-spoke steering wheel and shift knob
- Steering-wheel-mounted audio, navigation, phone and multi-information display controls
- Power tilt-and-telescopic steering column with automatic tilt-away
- Electroluminescent instrumentation
- Multi-information display
- Voice-activated HDD Navigation System [9] with backup camera [10], Bluetooth® technology [11], XM® Satellite Radio [12] and real-time traffic capability
- Lexus nine-speaker Premium Sound System with Digital Sound Processor, Automatic Sound Levelizer (ASL) and in-dash, single-feed, six-disc CD auto-changer
- Auxiliary iPod® [13]/MP3/Windows Media® Audio (WMA) port
- In-glass antenna with FM-diversity system
- Shark-fin antenna
- Four-zone automatic climate control with interior air filter, smog sensor and automatic recirculation mode
- 14-way driver's with power front cushion extender (including lumbar) and 12-way front passenger's (including lumbar) power seats
- Heated front seats

- Power-sliding, 60/40 split second-row seat with 40/20/40 seatback
- Power-folding, 50/50 split third-row seat
- Height-adjustable headrests for all seating positions
- Lexus Memory System to control power driver's seat (except lumbar), outside mirrors and steering wheel
- Lexus Personalized Settings (LPS) [14] to customize select electronic functions
- SmartAccess [15] auto lock/unlock with anti-lockout feature, keyless ignition with push-button Start/Stop
- HomeLink® universal transceiver to operate compatible garage, gate, home lighting and home security systems
- Cruise control
- Power windows with one-touch auto open/close
- Power tilt-and-slide moonroof with one-touch open/close and sliding sunshade
- Remote-linked window and moonroof opening
- Retained accessory power for windows and moonroof
- Power-adjustable, power-folding outside mirrors with defoggers, electrochromic auto-dimming and auto tilt-down in reverse
- Electrochromic auto-dimming inside rearview mirror
- Power rear lift gate
- Dual-compartment center console with accessory power outlet and wireless phone storage capability
- Automatic on/off projector-beam halogen headlamps with auto-off delay
- Illuminated entry system
- Illuminated driver and front-passenger doorsill scuff plates with Lexus logo
- Running boards with built-in courtesy lights
- Chrome-plated door handles
- Chrome-plated body side molding
- Cargo area tie-down hooks and 115-volt accessory power outlet
- Rear tailgate storage compartments
- Roof rack with rails [16] [17]
- Rear spoiler
- Tow hitch with cover [2]
- Carpeted floor mats

Safety & Security Features

- Driver's and front passenger's advanced airbag system (SRS) with front passenger occupant sensor
- Driver's and front passenger's knee airbags (SRS) [18]
- Front- and second-row outboard seat-mounted side airbags (SRS) [18]
- Front-, second- and third-row outboard side Roll-Sensing Curtain Airbags (RSCA) [18] with manual cutoff for off-road driving situations
- Three-point seatbelts for all seating positions, seatbelt pre-tensioners for front- and second-row outboard seats, seatbelt force limiters for front-row seats
- Automatic Locking Retractor/Emergency Locking Retractor (ALR/ELR) seatbelts for all passenger seating positions. Emergency Locking Retractor (ELR) for driver's seat
- Height-adjustable shoulder belt anchors for front and outboard second row
- Active headrests for the driver and front passenger [19]
- Child Restraint Seat (CRS) anchorage for middle-row outboard positions
- High-strength, high-rigidity, axial-compression safety frame structure
- Reinforced ladder-type frame
- Side-impact door beams
- Anti-rollover dynamics
- Impact-dissipating upper interior trim
- Highly rigid body structure with front and rear crumple zones
- Collapsible steering column
- Active Traction Control (A-TRAC)
- Vehicle Stability Control (VSC) [20]
- Hill-start Assist Control (HAC) [21]
- Four-wheel, power-assisted ventilated disc brakes
- Multi-terrain Anti-lock Braking System (ABS)
- Brake Assist [22]
- Electronic Brakeforce Distribution (EBD)
- Direct Tire Pressure Monitor System [23]
- See-through outer lens with four-beam multi-reflectors and projector-type low beams with Dual-swivel Adaptive Front Lighting System (AFS)

- Headlamp washers
- Daytime running lights
- Integrated foglamps
- LED taillamps
- Water-repellent front-door glass with UV reduction
- Rear privacy glass with in-glass antenna
- Laminated windshield and front-door glass
- Rain-sensing intermittent front windshield wipers with mist cycle and deicer
- Intermittent rear-window wiper with washer
- Rear-window defogger with auto-off timer
- Power-adjustable, power-folding outside mirrors with defoggers, electrochromic auto-dimming and auto tilt-down in reverse
- Theft-deterrent and engine immobilizer, with in-key transponder
- First aid kit
- Tool kit

[1] Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease.

[2] Before towing, confirm your vehicle and trailer are compatible, hooked up and loaded properly and that you have any necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions in your *Owner's Manual*. The maximum you can tow depends on the total weight of any cargo, occupants and available equipment.

[3] TORSEN® is a registered trademark of Zexel Torsen, Inc.

[4] The LX 570 is designed to meet most off-road driving requirements, but off-roading is inherently dangerous. Abusive use may result in bodily harm or damage. Lexus encourages responsible operation to protect you, your vehicle and the environment. Seatbelts should be worn at all times.

[5] DAC is designed to help the driver maintain vehicle control and speed on steep downhill descents. It is not a substitute for safe driving judgment and practices. Factors including speed, grade, surface conditions and driver input can all affect whether DAC will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details.

[6] 18-in or 19-in tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 15,000 miles, depending on driving conditions. Please see your Lexus dealer for details and other information relating to tire selection.

[7] Do not change the OEM wheel size (18-in for Executive-Class Seating Package II, 19-in for all others). Using other than the OEM wheel size could cause damage to the vehicle. If you replace the wheels, be sure they are the same size as the original wheels.

[8] EPA-estimated ratings. Actual mileage will vary. For more information on MPG and EPA ratings please visit the FAQ page.

[9] The voice-activated HDD Navigation System is designed to assist in locating an address or point of interest. XM NavTraffic™ requires a monthly service fee and is designed to provide real-time traffic or alternative routes of travel. Discrepancies may be encountered between the system and your actual location. Road system changes may affect the accuracy of the information provided. Rely on your common sense to decide whether to follow a specified route. Detailed coverage not available in every city or roadway. Periodic Navigation updates available at an additional cost. Please see your *Navigation System Owner's Manual* for further details.

[10] The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather will limit effectiveness and view may become cloudy.

[11] The Bluetooth® technology phones listed on lexus.com have been tested for compatibility with

Lexus vehicles. Performance will vary based on phone software version, coverage and your wireless carrier. Phones are warranted by their manufacturer, not Lexus.

[12] Functioning XM® Satellite Radio requires a compatible receiver and monthly service fee. Please see your Lexus dealer for further details. Reception of the satellite signal may vary depending on location. All fees and programming subject to change. Subscriptions subject to the terms and conditions available at www.xmradio.com Available only in the 48 contiguous United States.

[13] iPod is a registered trademark of Apple Inc.

[14] The Lexus Personalized Settings (LPS) Program is a one-time, complimentary offer for the first 12 months from the date the vehicle is sold. Please see your Lexus dealer for more information.

[15] The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system.

[16] Accessory roof rack with rails not recommended for luggage.

[17] Roof rack capacity is 130 lbs. Please see *Owner's Manual* for details.

[18] All the vehicle's airbag systems are Supplemental Restraint Systems (SRS). The driver and front passenger airbags are designed to inflate in severe (usually frontal) collisions where the magnitude and duration of the forward deceleration of the vehicle exceed the design threshold level. The side airbags and side curtain airbags are designed to inflate in certain types of severe side-impact collisions. The side curtain airbags also are Roll-Sensing Curtain Airbags (RSCA) and are designed to inflate at a severe tilt degree, roll or lateral G-force. In all other accidents the airbags will not inflate. To decrease the risk of injury from an inflating airbag, always wear seatbelts, sit upright in the middle of the seat as far back as possible from the airbag modules and do not lean against the door. Do not put objects in front of an airbag or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating airbag SRS may cause serious injury or death. Please see your *Owner's Manual* for further instructions.

[19] Active headrests can help prevent or limit the extent of whiplash in certain types of rear-end collisions.

[20] Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details.

[21] HAC is designed to help minimize backward rolling on steep ascents. It is not a substitute for safe driving judgment and practices. Factors including grade, surface conditions and driver input can all affect whether HAC will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details.

[22] Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions.

[23] The Lexus Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. Please see your *Owner's Manual* for details.

[24] Prices for options/accessories/packages are Manufacturer's Suggested Retail Price (MSRP) as of posting date. Actual dealer prices may vary. Lexus strives to build vehicles to match customer interest and thus they are typically built with popular options and option packages. Not all options/accessories/packages are available separately and some may not be available in all regions of the country. If you would prefer a vehicle with no or different options, contact your dealer to check for current availability or the possibility of placing a special order. Not all available accessories are shown.

[25] Headphones are for passenger use only. Do not use while operating vehicle.
